

State and Regional News Now Online

Editorial Staff

In an effort to provide the latest news affecting acupuncture and Oriental medicine, acupuncturetoday.com has added a State and Regional News section. The section is divided into four regions, with a map of the United States on the top of the page.

Clicking a particular region of the map takes you to a page containing the latest news from that area. Many of the stories that appear in the State and Regional News section are Web-exclusive: in other words, they will only appear online, not in print.

To access the news section, click on the "State and Regional News" link on acupuncturetoday.com's front page. You can also visit the page directly at www.acupuncturetoday.com/news.
